

It is highly recommended that laser operators use a per show checklist to ensure their system is set up safely and in accordance with any federal or local regulations. This sample checklist can be used or modified as needed. Some blank rows have been added for your convenience. This checklist was designed for US compliance, for other countries please consult local laws. For a copy of the template so you can place your own logo, please contact support@x-laser.com.

Operator Name: _____ Show/Venue name: _____

Show date:							
Laser projectors securely mounted							
Lasers properly connected to control							
Safe projection zone set in control							
Physical beam blocks securely attached							
All beams terminate safely							
All beams maintain required safety clearances							
Laser projectors respond to control inputs correctly							
Operator has clear view of all beam paths and termination points							
Operator is trained and holds a current variance or is employed by a variance holder							
Copy of active variance on site							
All laser emissions can be terminated by at least 2 methods							
Laser warning sign(s) posted if required
