

CERTIFICATE

of INITIAL LASER TRAINING

This certifies that

Has successfully completed the self-directed **X-Laser Introductory Training Course** consisting of 2.25 hours of educational presentations and videos as well as a thorough review of all compliance, operational, and safety related documentation.

This course is intended to provide basic LSO Course content as required by the standard terms of the FDA Laser Light Show Performance Variance. The course includes an introduction to laser technology, unique attributes of coherent light sources, an introduction to operator compliance methodologies, requirements for remote beam attenuation and safety clearances, basics of aerial rigging, procedures for beam blocking, explanations of required forms (safety checklist, show notification, etc.), as well as a video product tour and DMX control demonstration.
